

# UNI-GUARD KEY FEATURES AND BENEFITS

## UNI-GUARD COATING SYSTEM FOR MILD STEEL FEATURES

- Low VOC – Environmentally friendly
- Elastomeric and Flexible
- Excellent resistant to stone chips and direct impact
- Excellent adhesion to withstand cracking and peeling
- Metallic and bright colour availability
- Semi-gloss finish
- UV resistant
- Light weight protection
- Increased corrosion protection
- Easy re-coat
- Touch up kits available MTO
- Zinc formulated Epoxy primer
- Hybrid Poly-Urethane technology topcoat

### COMPARISON CHART ON TYPICAL STEEL COATINGS AND TREATMENTS

COATING OR TREATMENT SYSTEM	PROPERTIES						
	Economical Installation	Colour Availability	Touch up	Flexible	Chemical Resistance	Impact Resistant	Light weight
Hammer Tone Enamel	Medium	Medium	Low	Low	Low	Low	High
Air Dry Enamel	High	High	High	Low	Low	Low	High
Powder Coating	Low	High	Low	Low	Low	Low	High
Galvanising Process	Low	Low	Low	N/A	High	High	Low
UNI-GUARD	Medium	High	High	High	Medium	High	High
